RPB/SNF INTERNATIONAL RESEARCH COLLABORATORS AWARD

2017 Guidelines and Instructions

DEADLINE
Nomination Form: December 15, 2016 for January 2017 deadline
June 15, 2017 for July 2017 deadline
Application: January 10, 2017 (awarded in June)
July 1, 2017 (awarded in December)

DESCRIPTION
RPB/SNF International Research Collaborators Award: $75,000.

The RPB/Stavros Niarchos Foundation* International Research Collaborators Award promotes international collaborations through which researchers in the US and outside the US gain new knowledge and skills. These international collaborations have the potential to accelerate the development of treatments for blinding disorders, positively affecting large populations worldwide for years to come.

Under a reciprocal arrangement, a US-based researcher will be funded to go for a period of time to an institution outside the US to gain new knowledge and/or skills and to deepen collaborative relationships with researchers there that will be conducive to future research collaborations. In turn, the institution outside the US will send a researcher for a period of time to the US institution from which the US researcher came. The collaboration should provide a synergistic benefit to each researcher and to the culminating project. A minimum of three months stay in the other country is expected by each researcher. The duration of the collaboration is flexible. The submission must spell out specific and cogent objectives to be accomplished by each of the collaborating researchers toward the fulfillment of two broad goals: (1) gaining new knowledge and skills; and (2) strengthening collaborations across international boundaries. Successful candidates will leverage the unique expertise of each researcher, whereby their collaboration creates a work product that is more than the sum of its parts. The award can be used for travel, lodging, salary for post-doctoral researchers, salary for outside-US collaborators, lab equipment and consumables. Salaries for US-based primary researchers will not be paid by this award.

While a fair amount of flexibility will be permitted in the development and implementation of the reciprocal international collaboration and exchange, excellent science must underlie all aspects of the application.

ELIGIBILITY

- RPB-supported Chairs maynominate an MD, PhD, or MD/PhD with a primary appointment in either the ophthalmology department or in another relevant department (Assistant Professor through full Professor), particularly encouraging early-career investigators. Candidates must be from the RPB-supported institution.

- A three- to six-month stay in the other country is expected by each researcher, with a minimum stay of three months. A fair amount of flexibility in how this expectation is implemented will be allowed during this three-year pilot period of this Award, including an exchange of postdocs (perhaps accompanied by much briefer exchanges of senior investigators), Assistant Professor and/or senior investigators between labs. Other options can be discussed.

- Matching funds are not required, however, a match is encouraged by the RPB-supported department and/or the institution outside the US.

* The Stavros Niarchos Foundation (www.SNF.org) is one of the world's leading private international philanthropic organizations, making grants in the areas of arts and culture, education, health and sports, and social welfare. The Foundation funds organizations and projects that are expected to achieve a broad, lasting and positive impact for society at large, focusing on vulnerable groups such as children and the elderly, and also exhibit strong leadership and sound management.
As with all RPB awards, Chairs may nominate only one person per grant category, per cycle, and candidates must be either US citizens or permanent residents (green card holder) by the application deadline. Candidates must be full-time faculty in their primary appointment department by the application deadline. Any previous individual RPB grants to the candidate must be fully spent and recognized as terminated by RPB before an individual researcher may apply for another RPB grant. All RPB grants must remain free of institutional overhead and are non-transferable to other individuals or other institutions. Should the awardee leave his/her primary appointment department or the outside US collaborator leave their home institution during the collaboration, the department must return any unspent funds. Complete grant stipulations are included in award letters.

REPORTING

- RPB requires an annual interim report while the award is active. A final report is required once funds are expended.
- Failure to properly report and credit research funded by RPB puts your grant at risk for termination.

NOMINATION FORM AND APPLICATION SUBMISSION

Nomination Form: Nomination forms are a requirement. For the January 10 application deadline, nomination forms are due no later than December 15; for the July 1 application deadline, nomination forms are due no later than June 15. Applications received without a prior nomination form will not be accepted. Complete the nomination form and email to Pattie Moran at pmoran@rpbusa.org. Nomination forms should be sent as Word documents only.

Application: RPB will accept applications and supporting documentation via the password-protected page on RPB’s web site that has been established for application submission. Please note only one (1) upload, with application and all applicable supporting documentation, will be accepted per candidate. This upload must be received no later than 11:59pm ET on the deadline date.

- Go to https://sites.rpbusa.org/grantees to log in. (NB: You can always find this page on the RPB web site, www.rpbusa.org, by clicking on the Grants & Research tab on the top of the home page, and then by clicking on “Grantee Login” in the drop down menu.)
- Enter the password: Research (not case sensitive)
- Click on the “Upload Grant Application” button to go to the upload form.
- Once you are on the upload form, enter your email address in the “From email” field.
- Upload your application and supporting documentation by browsing for them on your computer using the “Browse” button on the form.
- Use the Message box to add additional information, if any.
- Before clicking “SendThisFile” to send your submission, check that the information is complete.
- Click the “SendThisFile” button to send your application and supporting documentation.

This upload must include three separate documents:

Two signed, completed application forms:
1. One as a PDF document.
2. One as a Word document.

The third document must include, in PDF, in this order:
- The US-based candidate’s NIH-style biosketch, in PDF; limit five (5) pages. The candidate must adhere to current NIH format and instructions. Biosketches submitted in any other format will be disqualified.
RPB/SNF International Research Collaborators Award

- The outside-US collaborator’s NIH-style biosketch, in PDF; limit five (5) pages. The collaborator must adhere to current NIH format and instructions. If unavailable, please use RPB biosketch available at the end of the application. If RPB biosketch format is unnecessary, please delete pages from application before submitting. Collaborator’s biosketch and bibliography must be submitted in English.

- For All Candidates: A statement from the RPB-supported ophthalmology Chair describing the importance of the collaboration and the researchers involved, its relevance to vision research, and its anticipated outcomes and benefits to the researchers, institutions, and the vision-impaired population. Also include how this collaboration will influence the trajectory of the US candidate’s career. Statement must be on letterhead, signed, in PDF, and addressed to “RPB’s Review Committees.” Limit to three (3) pages. Font size 10-point or higher.

- For Candidates with Primary Appointments outside the Ophthalmology Department: Primary appointment department Chair’s statement of the candidate’s scientific expertise, describing the candidate’s current or proposed ophthalmic research objectives, the relevance of these research activities as it relates to the collaboration, his/her record of accomplishments, and how this collaboration will influence the trajectory of the US candidate’s career. Statement must be on letterhead, signed, in PDF, and addressed to “RPB’s Review Committees.” Limit to three (3) pages and font size 10-point or higher. If the candidate is the department Chair, this statement is required from the Dean of the medical school.

- A joint scientific statement signed by both the US candidate and the outside-US collaborator, in PDF. In addition to the items below, the statement must provide the rationale as to why these researchers are collaborating, what each will bring to the endeavor and what each will gain in terms of knowledge and skills, an overview of how the exchange will work, and how the proposed exchange will allow the goals of the research collaboration to be accomplished. Statement should: (1) define the problem or topic, (2) describe the approaches to be used; (3) justify the initial positions, arguments, or topics to be explored or describe how proposed efforts will achieve the desired goals; and (4) comment on the importance and implications of the expected outcomes or achievements. Limit statement to four (4) pages with references included on a fifth page. Entire document should not exceed five (5) pages. Font size 10-point or higher.

- Simple line item budget on the use of funding, including dollar amounts and description. Limit one (1) page and font size 10-point or higher.

- Timeline of the proposed collaboration (when travel will take place, what will be done during the joint visits and separately to complete project, etc.). Limit one (1) page and font size 10-point or higher.

- A statement from the outside-US collaborator’s Chair/supervisor explaining the department/institution’s role in and support of the collaboration, the outside-US collaborator’s interests in vision research and how it relates to this collaboration, the benefit derived from the collaboration to the department/institution, and how this collaboration will influence the trajectory of the outside-US collaborator’s career. Statement must be on the institution’s letterhead, signed, in PDF, and addressed to “RPB’s Review Committees.” Limit to two (2) pages and font size 10-point or higher.

No letters of recommendation are required for this application.

Materials received after the deadline will not be accepted. Incomplete submissions are not forwarded to RPB’s review committees and are automatically declined. Notify RPB if there are any changes to the status of major pending grants. If the deadline falls on a weekend or holiday, proposals will be accepted the first following business day. Do not alter application format. Do not include binders, manuscripts, reprints, or any information not required.

Granting of awards is at the full discretion of RPB; we reserve the right to not make any award, based on the submissions.

Any questions, please contact Pattie Moran at 646-892-9566 or pmoran@rpbusa.org.
**APPLICATION PREPARATION**

We've included information below to assist you in preparing and completing the RPB/SNF International Research Collaborators Award Application.

Do not change formatting. Please keep pagination the same. If necessary, abbreviate answers to fit allotted space. Please provide responses in Arial 9 (font/size). Do not change the font/size of the actual questions.

Current NEI Support as US-Based Candidate as Principal Investigator:

- Indicate no-cost extensions with an asterisk (*)
- Specify Source.
- Specify Type, e.g., K08, R01, R21, etc.
- Enter Current Year Direct Costs and Total Grant Amount.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 13-17, not total number of years, e.g., 4.

Current NIH Support (other than NEI) of US-Based Candidate as Principal Investigator:

- Indicate no-cost extensions with an asterisk (*)
- Specify Source.
- Specify Type, e.g., K05, K21, R55, etc.
- Enter Current Year Direct Costs and Total Grant Amount.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 13-17, not total number of years, e.g., 4.

NIH Support of US-Based Candidate as Principal Investigator Terminated Within Past Three Years:

- Include all NIH support.
- Specify Source.
- Specify Type, e.g., K08, R01, R21, etc.
- Enter Total Grant Amount.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 12-14, not total number of years, e.g., 2.

Current Grant Support (other than NIH and NEI) of US-Based Candidate as Principal Investigator:

- Indicate no-cost extensions with an asterisk (*)
- Specify Source.
- Specify Type, if applicable.
- Enter Current Year Direct Costs and Total Grant Amount.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 13-17, not total number of years, e.g., 4.

Pending Grant/Renewal Support (all) as Principal Investigator:

- Notify RPB of any status change to this listing after submitting application.
- Specify Source.
- Specify Type, e.g., K08, R01, R21, etc.
- Enter Total Grant Amount.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 17-19, not total number of years, e.g., 2.

Overlap:

- In relation to the proposed research in this application, indicate Yes or No to any overlap issues with current and/or pending awards/grants:
  - **Scientific:** Scientific overlap occurs when substantially the same research is proposed in more than one application; or is submitted to two or more different funding sources for review and funding consideration; or a specific research objective and the experimental design for accomplishing that objective are the same or closely related in two or more pending applications or awards, regardless of funding source.
  - **Budget:** Budgetary overlap occurs when duplicate or equivalent budgetary items (e.g., equipment, salary) are requested in an application but are already funded by another source.
  - **Commitment:** Commitment overlap occurs when any project-supported personnel has time commitments (i.e., percent effort) exceeding 100%, regardless of how the effort/salary is being supported or funded.
  - If Yes for any of the above, explain the overlap issues in the space provided.
### Publications:

- **US-Based Candidate’s Publication History:** Provide number of peer-reviewed publications; number of other publications; and the total number of publications in the candidate’s career (number of peer-reviewed and other publications should equal total number of publications).
- **US-Based Candidate’s Publications Pertaining to Proposed Research:** Provide number of peer-reviewed publications; number of other publications; and the total number of publications pertaining to proposed research (number of peer-reviewed and other publications should equal total number of publications). Indicate number of publications pertaining to proposed research listed in candidate’s biosketch.
- **Outside US Collaborator’s Publication History:** Provide number of peer-reviewed publications; number of other publications; and the total number of publications in the mentor’s career (number of peer-reviewed and other publications should equal total number of publications).
- **Outside US Collaborator’s Publications Pertaining to Proposed Research:** Provide number of peer-reviewed publications; number of other publications; and the total number of publications pertaining to proposed research (number of peer-reviewed and other publications should equal total number of publications). Indicate number of publications pertaining to proposed research listed in mentor’s biosketch.

### Agreement:

- RPB-Supported Chair and US-Based Candidate to sign.

### Contact Information – US-Based Candidate and Institution:

- **Contact Information:**
  - Enter contact information for RPB-supported ophthalmology Chair; include degrees.
  - Enter name and contact information of Research Grant Administrator responsible for RPB applications. Include address if different than Chair’s and include degrees.
  - Complete current contact information for US-Based Candidate; include degrees.
  - Enter name and contact information for Ophthalmology Director of Research and Dean of the Medical School; include degrees.

### Contact Information – Outside US Collaborator and Institution:

- **Contact Information:**
  - Enter contact information for Chair or Supervisor; include degrees.
  - Complete current contact information for Outside US Collaborator; include degrees.

### Outside US Collaborator’s Biographical Sketch:

- Use RPB’s biosketch only if NIH-style biosketch is unavailable for Collaborator; limit five (5) pages. If RPB biosketch format is unnecessary, please delete pages from application before submitting. Biosketch must be submitted in English.
- Enter Collaborator’s name and current primary and secondary (if applicable) appointment(s), including degrees, academic title(s), department(s), and school(s).

### Education:

- List baccalaureate through postdoc training; fellowships, and specialties.
- Enter Years as YY-YY. Provide actual years at institution, e.g., 05-09, not total number of years e.g., 4.

### Research and Professional Experience:

- Starting with present position, chronologically list all employment, experience, present membership on government/public advisory committees. Include title and department for each listing, if applicable.
- Enter Years as YY-YY. Provide actual years, e.g., 05-09, not total number of years, e.g., 4.
Honors/Awards:
- Include all honors/awards received and all institutions/organizations conveying awards.
- Enter Year as YYYY.

Bibliography:
- Enter Collaborator’s last name; include degrees.
- Complete either All Pubs Listed or Select Pubs Listed.
- Include total number of pubs when completing Select Pubs Listed.
- Chronologically list the titles, authors, and references to publications. List peer-reviewed articles first, separate from other listings. Bibliography must be submitted in English. When entering authors, the Primary Collaborator’s/Mentor’s name must be in **bold** face. Example below:

NIH-STYLE BIOSKETCH FORMAT AND SAMPLE
BIOGRAPHICAL SKETCH

Provide the following information for the Senior/key personnel and other significant contributors.
Follow this format for each person. DO NOT EXCEED FIVE PAGES.

NAME:

eRA COMMONS USER NAME (credential, e.g., agency login):

POSITION TITLE:

EDUCATION/TRAINING (Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)

<table>
<thead>
<tr>
<th>INSTITUTION AND LOCATION</th>
<th>DEGREE (if applicable)</th>
<th>Completion Date MM/YYYY</th>
<th>FIELD OF STUDY</th>
</tr>
</thead>
</table>

NOTE: The Biographical Sketch may not exceed five pages. Follow the formats and instructions below.

A. Personal Statement

Briefly describe why you are well-suited for your role(s) in the project described in this application. The relevant factors may include aspects of your training; your previous experimental work on this specific topic or related topics; your technical expertise; your collaborators or scientific environment; and your past performance in this or related fields (you may mention specific contributions to science that are not included in Section C). Also, you may identify up to four peer reviewed publications that specifically highlight your experience and qualifications for this project. If you wish to explain impediments to your past productivity, you may include a description of factors such as family care responsibilities, illness, disability, and active duty military service.

B. Positions and Honors

List in chronological order previous positions, concluding with the present position. List any honors. Include present membership on any Federal Government public advisory committee.

C. Contribution to Science

Briefly describe up to five of your most significant contributions to science. For each contribution, indicate the historical background that frames the scientific problem; the central finding(s); the influence of the finding(s) on the progress of science or the application of those finding(s) to health or technology; and your specific role in the described work. For each of these contributions, reference up to four peer-reviewed publications or other non-publication research products (can include audio or video products; patents; data and research materials; databases; educational aids or curricula; instruments or equipment; models; protocols; and software or netware) that are relevant to the described contribution. The description of each contribution should be no longer than one half page including figures and citations. Also provide a URL to a full list of your published work as found in a publicly available digital database such as SciENcv or My Bibliography, which are maintained by the US National Library of Medicine.
D. Research Support
List both selected ongoing and completed research projects for the past three years (Federal or non-Federally-supported). Begin with the projects that are most relevant to the research proposed in the application. Briefly indicate the overall goals of the projects and responsibilities of the key person identified on the Biographical Sketch. Do not include number of person months or direct costs.
BIOGRAPHICAL SKETCH
Provide the following information for the Senior/key personnel and other significant contributors. Follow this format for each person. DO NOT EXCEED FIVE PAGES.

NAME: Hunt, Morgan Casey

eRA COMMONS USER NAME (credential, e.g., agency login): huntmc

POSITION TITLE: Associate Professor of Psychology

EDUCATION/TRAINING (Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)

</table>

A. Personal Statement
I have the expertise, leadership, training, expertise and motivation necessary to successfully carry out the proposed research project. I have a broad background in psychology, with specific training and expertise in ethnographic and survey research and secondary data analysis on psychological aspects of drug addiction. My research includes neuropsychological changes associated with addiction. As PI or co-Investigator on several university- and NIH-funded grants, I laid the groundwork for the proposed research by developing effective measures of disability, depression, and other psychosocial factors relevant to the aging substance abuser, and by establishing strong ties with community providers that will make it possible to recruit and track participants over time as documented in the following publications. In addition, I successfully administered the projects (e.g. staffing, research protections, budget), collaborated with other researchers, and produced several peer-reviewed publications from each project. As a result of these previous experiences, I am aware of the importance of frequent communication among project members and of constructing a realistic research plan, timeline, and budget. The current application builds logically on my prior work. During 2005-2006 my career was disrupted due to family obligations. However, upon returning to the field I immediately resumed my research projects and collaborations and successfully competed for NIH support.

B. Positions and Honors

Positions and Employment

1998-2000  Fellow, Division of Intramural Research, National Institute of Drug Abuse, Bethesda, MD
2000-2002  Lecturer, Department of Psychology, Middlebury College, Middlebury, VT
2001-  Consultant, Coastal Psychological Services, San Francisco, CA
2002-2005  Assistant Professor, Department of Psychology, Washington University, St. Louis, MO
2007-  Associate Professor, Department of Psychology, Washington University, St. Louis, MO

Other Experience and Professional Memberships

1995-  Member, American Psychological Association
1998-  Member, Gerontological Society of America
1998-  Member, American Geriatrics Society
2000-  Associate Editor, Psychology and Aging
2003-  Board of Advisors, Senior Services of Eastern Missouri
2003-05 NIH Peer Review Committee: Psychobiology of Aging, ad hoc reviewer
2007-11 NIH Risk, Adult Addictions Study Section, members

Honors

2003  Outstanding Young Faculty Award, Washington University, St. Louis, MO
2004  Excellence in Teaching, Washington University, St. Louis, MO
2009  Award for Best in Interdisciplinary Ethnography, International Ethnographic Society

C. Contribution to Science

1. My early publications directly addressed the fact that substance abuse is often overlooked in older adults. However, because many older adults were raised during an era of increased drug and alcohol use, there are reasons to believe that this will become an increasing issue as the population ages. These publications found that older adults appear in a variety of primary care settings or seek mental health providers to deal with emerging addiction problems. These publications document this emerging problem but guide primary care providers and geriatric mental health providers to recognize symptoms, assess the nature of the problem and apply the necessary interventions. By providing evidence and simple clinical approaches, this body of work has changed the standards of care for addicted older adults and will continue to provide assistance in relevant medical settings well into the future. I served as the primary investigator or co-investigator in all of these studies.

2. In addition to the contributions described above, with a team of collaborators, I directly documented the effectiveness of various intervention models for older substance abusers and demonstrated the importance of social support networks. These studies emphasized contextual factors in the etiology and maintenance of addictive disorders and the disruptive potential of networks in substance abuse treatment. This body of work also discusses the prevalence of alcohol, amphetamine, and opioid abuse in older adults and how networking approaches can be used to mitigate the effects of these disorders.

3. Methadone maintenance has been used to treat narcotics addicts for many years but I led research that has shown that over the long-term, those in methadone treatment view themselves negatively and they gradually begin to view treatment as an intrusion into normal life. Elderly narcotics users were shown in carefully constructed ethnographic studies to be especially responsive to tailored social support networks that allow them to eventually reduce their maintenance doses and move into other forms of therapy. These studies also demonstrate the policy and commercial implications associated with these findings.

D. Research Support

Ongoing Research Support
R01 DA942367 Hunt (PI) 09/01/08-08/31/16
Health trajectories and behavioral interventions among older substance abusers
The goal of this study is to compare the effects of two substance abuse interventions on health outcomes in an urban population of older opiate addicts.
Role: PI

R01 MH922731 Merryle (PI) 12/15/07-11/30/15
Physical disability, depression and substance abuse in the elderly
The goal of this study is to identify disability and depression trajectories and demographic factors associated with substance abuse in an independently-living elderly population.
Role: Co-Investigator

Faculty Resources Grant, Washington University 08/15/09-08/14/15
Opiate Addiction Database
The goal of this project is to create an integrated database of demographic, social and biomedical information for homeless opiate abusers in two urban Missouri locations, using a number of state and local data sources.
Role: PI

Completed Research Support
R21 AA998075 Hunt (PI) 01/01/11-12/31/13
Community-based intervention for alcohol abuse
The goal of this project was to assess a community-based strategy for reducing alcohol abuse among older individuals.
Role: PI
Please refer to Grant Guidelines for eligibility requirements.
