

## CAREER ADVANCEMENT AWARD

### Fall 2026 Guidelines

#### DEADLINES\*

Nomination Form: June 15, 2026

Application: July 1, 2026 (awarded in December)

*\*If the deadline falls on a weekend or holiday, please consider the deadline to be the following business day.*

#### DESCRIPTION

The Career Advancement Awards (\$150,000) assist outstanding early-career vision scientists in pursuit of ongoing research of unusual significance and promise. This award is available to candidates who have already received their first NIH R01 and are collecting new data to apply for a second R01.

One (1) Career Advancement Award, \$150,000, funded by RPB will be given.

- **The RPB Career Advancement Awards** will not have a specific scientific focus and are open to any topic within vision research.

Awardees will be required to expend the award within two (2) years.

#### ELIGIBILITY

- Full-time department Chairs from any institution of higher education in the U.S. may nominate one candidate per department for the Career Advancement Award. The candidate must have an MD, PhD, or MD/PhD with a primary appointment as an Assistant or Associate Professor in any department. Interim or acting Chairs cannot nominate a candidate for this award.
- Candidates must have their first NIH R01 with at least one year remaining and are currently collecting new data to apply for a second R01. The candidate can be a multiple principal investigator (MPI) on their first R01. However, if the candidate has their first R01 and is an MPI on another R01, the candidate is not eligible for this award.
- Any part of the RPB grant not earmarked for salary should be used to equip and staff the awardee's lab and fund research efforts. The grant cannot replace salary support currently derived from other sources.
- Previous recipients of this award are not eligible to apply.
- Candidates must be full-time faculty in their primary appointment department by the application deadline. Any previous individual RPB grants to the candidate must be fully spent and recognized as *terminated* by RPB before an individual researcher may apply for another RPB grant. This only applies to the candidate and not to the mentors and/or collaborators.
- **Each department can nominate only one applicant per award category.**

**All RPB grants must remain free of institutional overhead and indirect costs.** The Career Advancement Award is not transferable to other individuals or other institutions. It is the responsibility of the primary appointment department to monitor the funds and report on their use. Should the awardee leave his/her primary appointment department, any unspent funds must be returned to RPB. Any equipment purchased with RPB funds is the property of the primary appointment department.

Grant disbursement will be made electronically. IRB approval, if applicable, will be required at the time of the application or before funds are disbursed.

## REPORTING REQUIREMENTS

All reporting requirements relate to research conducted with the Career Advancement Award:

- Summary report (annually, due each November, while the award is active).
- Bibliography (annually, due each January, while the award is active).
- Photo (one-time, due first January).
- Financial report (annually, due each January, while the award is active).
- Final report (one-time, due six months after the award is expended).

If awarded, information on fulfilling the above requirements will be sent under separate cover. Failure to properly report and credit research funded by RPB places the grant at risk for termination.

## NOMINATION FORM AND APPLICATION SUBMISSION *(for all awards)*

**Nomination Form:** Nomination forms are a requirement. **For the July 1 application deadline, nomination forms are due no later than June 15. Applications received without a prior nomination form will not be accepted.** Complete the nomination form (in Word), include the candidate's NIH-style biosketch (in PDF), and email to MariaClaudia Lora-Montano at [mlora@rpbusa.org](mailto:mlora@rpbusa.org). Nomination forms should be sent as Word documents only.

**Note.** The email subject of the nomination form should include **CAA Nomination – School – Candidate Last Name.**

**\*RPB is not responsible for nomination forms submitted with a different email subject.**

**Application:** RPB will accept applications and *most* supporting documentation via the password-protected page on RPB's site that has been established for application submission. Please note only one (1) upload action, with application and all applicable supporting documentation, will be accepted per candidate. This upload must be received **no later than 11:59pm ET on the deadline date.**

- Go to [www.rpbusa.org](http://www.rpbusa.org) and click the "Grants Login" button in the top right corner.

- Select **"Grant Applications"**
- Enter the password: **ResearchFall2026** (case sensitive)
- Fill in all the required information.
- Upload your files. You can drag and drop files into the upload area or select files saved on your computer.
- If necessary, add any comments about your uploaded files (this is not required)
- Check that all of the information entered is complete and accurate, then click the "Submit" button.

You will receive the following **confirmation message** once the materials are uploaded.

## DOCUMENTATION SUBMISSION

The single upload action must include only two (2) separate documents:

1. Signed, completed application form, in a **Word document**. (Include **ALL SIGNATURES!**)
2. Supporting documentation: As a **single PDF** (not a PDF portfolio), this document must include the below documents **in this order**:
  - a. The candidate's NIH-style biosketch; limit five (5) pages. The candidate must adhere to current NIH format and instructions. The biosketch **MUST** include a link to the candidate's complete list of published work using the reference tool, *My Bibliography*. Please ensure the link works before submitting to RPB.
  - b. A statement from the primary appointment department's Chair describing the candidate's scientific expertise. Describe the candidate's current or proposed ophthalmic research objectives, the clinical relevance of these research activities, his/her record of accomplishments, and any aspirations which may lead to future ophthalmic achievement. The statement should include a description of the Chair's plans for the career development/advancement of the candidate, plans for promotion, tenure, etc. as well as an indication of institutional support/investment the candidate will receive from the department. Statement must be on letterhead, signed, and addressed to "RPB's Review Committees." Limit to three (3) pages and font size 10-point or higher.
  - c. The candidate's detailed scientific statement on the research objectives to be pursued. Limit statement to four (4) pages with references included on a fifth page. Entire statement should not exceed five (5) pages. Font size 10-point or higher.
  - d. Line-item budget on use of funding, including approximate dollar amounts and descriptions. Include timeline for expenditure of funds. Also, provide a statement of the candidate's role in this specific research project. Limit two (2) pages.
  - e. If collaborating with others, list each collaborator and describe his/her role in the proposed research. Limit document to two (2) pages. Font size 10-point or higher.
  - f. If collaborating with others, each collaborator must submit a letter of support and commitment to the proposed research. Statement must be on letterhead, signed, and addressed to "RPB's Review Committees." Limit each letter to one (1) page. Font size 10-point or higher.
  - g. Evidence of IRB review or the status of the IRB approval, if applicable. (Submit this information by the time of the application. If the application is approved, payment will not be made until, if applicable, the IRB is approved).
  - h. Institution's IRS 501c(3) Letter of Determination or other Federal determination letter and Federal Employment Identification Number.

Materials received after the deadline will not be accepted and will render the submission as incomplete. The review committees do not review incomplete submissions, which are automatically declined. Do not alter the application format. Do not include manuscripts, reprints, or any information not required by RPB. **Notify RPB if there are any changes to the status of major pending grants after the application has been submitted.**

RPB grants awards at its full discretion; we reserve the right not to make any award based on the submissions.

If you have any questions, please contact MariaClaudia Lora-Montano at 646-892-9564 or [mlora@rpbusa.org](mailto:mlora@rpbusa.org).

**APPLICATION PREPARATION (for all awards)**

We've included information below to assist you in preparing and completing the Career Advancement Award Application.

**Do not change formatting. Please keep pagination the same. If necessary, abbreviate answers to fit allotted space. Please provide responses in Arial 9 (font/size). Do not change the font/size of the actual questions.**

<p><b>Candidate Information:</b></p> <ul style="list-style-type: none"> <li>➤ Enter Candidate's name; include degrees.</li> <li>➤ OPTIONAL. To self-identify, please indicate the one box that describes the race/ethnicity category with which you primarily identify, if applicable. This information is voluntary.</li> <li>➤ Enter name of institution.</li> <li>➤ Enter Candidate's current primary and secondary (if applicable) appointment(s), including degrees, academic title(s) and department(s).</li> <li>➤ Enter name of primary appointment Chair, include degrees.</li> </ul>
<p><b>Specialty Field of Proposed Research:</b></p> <ul style="list-style-type: none"> <li>➤ Place X to the right of your selection for the following (see example below):</li> </ul> <p style="padding-left: 40px;">Anatomy/Pathology/Oncology X    Biochemistry/Molecular Biology    Clinical/Epidemiologic    Cornea</p>
<p><b>Title of Proposed Research:</b></p> <ul style="list-style-type: none"> <li>➤ Enter title of proposed research. Do not go beyond allotted space.</li> </ul>
<p><b>Summary of Overall Objectives/Significance/Benefits of Proposed Research:</b></p> <ul style="list-style-type: none"> <li>➤ <b>Limit response to twenty (20) lines or less.</b></li> <li>➤ In layman's terms, summarize overall objectives, significance, benefits of the proposed research. Do not duplicate biosketch information, awards, pubs, etc., or Chair or Candidate statements.</li> </ul>
<p><b>Time Devoted to Research as Opposed to Other Academic Duties:</b></p> <ul style="list-style-type: none"> <li>➤ Include percentage of time devoted to research.</li> </ul>
<p><b>Onsite Mentors:</b></p> <ul style="list-style-type: none"> <li>➤ If applicable, list up to three onsite mentors, including degrees, titles and departments.</li> </ul>
<p><b>For RPB Use Only:</b></p> <ul style="list-style-type: none"> <li>➤ This section is for RPB Use Only. <b>DO NOT ENTER ANY INFORMATION.</b></li> </ul>
<p><b>Current NEI Support as Principal Investigator (PI) or Multiple PI:</b></p> <ul style="list-style-type: none"> <li>➤ <b>Indicate no-cost extensions with an asterisk (*), e.g., 23-27*.</b></li> <li>➤ Specify Source.</li> <li>➤ Specify Type, e.g., K08, R01, R21, etc.</li> <li>➤ Enter Annual Direct Costs and Total Grant Amount (include direct and indirect costs in Total Grant Amount). Total Grant Amount should reflect the entire grant period.</li> <li>➤ Enter Years as YY-YY. Provide actual years of grant, e.g., 23-27, not total number of years, e.g., 4.</li> </ul>

**Current NIH Support (other than NEI) as Principal Investigator (PI) or Multiple PI:**

- Indicate no-cost extensions with an asterisk (\*), e.g., 23-27\*.
- Specify Source.
- Specify Type, e.g., K05, K21, R55, etc.
- Enter Annual Direct Costs and Total Grant Amount (include direct and indirect costs in Total Grant Amount). Total Grant Amount should reflect the entire grant period.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 23-27, not total number of years, e.g., 4.

**NIH Support as Principal Investigator (PI) or Multiple PI Terminated Within Past Three Years:**

- Include all NIH support.
- Specify Source.
- Specify Type, e.g., K08, R01, R21, etc.
- Enter Total Grant Amount (include direct and indirect costs). Total Grant Amount should reflect the entire grant period.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 21-23, not total number of years, e.g., 2.

**Current Grant Support (other than NIH and NEI) as Principal Investigator (PI) or Multiple PI:**

- Indicate no-cost extensions with an asterisk (\*), e.g., 23-27\*.
- Specify Source.
- Specify Type, if applicable.
- Enter Annual Direct Costs and Total Grant Amount (include direct and indirect costs in Total Grant Amount). Total Grant Amount should reflect the entire grant period.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 23-27, not total number of years, e.g., 4.

**Pending Grant/Renewal Support (all) as Principal Investigator (PI) or Multiple PI:**

- Notify RPB of any status change to this listing after submitting application.
- Specify Source.
- Specify Type, e.g., K08, R01, R21, etc.
- Enter Total Grant Amount (include direct and indirect costs). Total Grant Amount should reflect the entire grant period.
- Enter Years as YY-YY. Provide actual years of grant, e.g., 24-26, not total number of years, e.g., 2.

**Current Time Commitment:**

- Include time commitment percentage to each responsibility.
- If applicable, specify Other responsibilities such as administrative, volunteer efforts, etc.

**Anticipated Use of Funding:**

- Include percentage and description of grant use. Use brief descriptions, e.g., salary supplement for PI; partial salary for assistants; equipment; consumables; etc.

**IRB Approval:**

- Indicate if the Candidate is working with human subjects.
- If applicable, indicate if the Candidate has secured IRB approval– Provide status of approval and/or attach a copy.
- Include supplemental page, if necessary.

**Publications:**

- Candidate’s Publication History: Provide number of peer-reviewed publications; number of other publications; and the total number of publications in the candidate’s career (number of peer-reviewed and other publications should equal total number of publications).

**Overlap:**

- In relation to the proposed research in this application, indicate Yes or No to any overlap issues with current and/or pending awards/grants:
- **Scientific:** Scientific overlap occurs when substantially the same research is proposed in more than one application; or is submitted to two or more different funding sources for review and funding consideration; or a specific research objective and the experimental design for accomplishing that objective are the same or closely related in two or more pending applications or awards, regardless of funding source.
- **Budget:** Budgetary overlap occurs when duplicate or equivalent budgetary items (e.g., equipment, salary) are requested in an application but are already funded by another source.
- **Commitment:** Commitment overlap occurs when any project-supported personnel has time commitments (i.e., percent effort) exceeding 100%, regardless of how the effort/salary is being supported or funded.
- If Yes for any of the above, explain the overlap issues in the space.

**Distinguish Current and/or Pending Funding:**

- Though no overlap may be noted above, please distinguish the proposed research in this application with any current and/or pending awards/grants which the reviewers **could** consider as similar.
- If applicable, explain in the space provided.

**Agreement:**

- Chair and Candidate to sign.

**Contact Information:**

- Complete contact information for Candidate; include degrees.
- Enter contact information for primary appointment Chair; include degrees.
- Enter contact information for primary appointment department's Research Grant Administrator. Include address if different than Chair's and include degrees.

## **NIH-STYLE BIOSKETCH FORMAT AND SAMPLE**

**BIOGRAPHICAL SKETCH**

Provide the following information for the Senior/key personnel and other significant contributors.  
Follow this format for each person. **DO NOT EXCEED FIVE PAGES.**

---

NAME:

---

eRA COMMONS USER NAME (credential, e.g., agency login):

---

POSITION TITLE:

---

EDUCATION/TRAINING (*Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.*)

INSTITUTION AND LOCATION	DEGREE (if applicable)	Completion Date MM/YYYY	FIELD OF STUDY

**A. Personal Statement**

Briefly describe why you are well-suited for your role(s) in this project. Relevant factors may include: aspects of your training; your previous experimental work on this specific topic or related topics; your technical expertise; your collaborators or scientific environment; and/or your past performance in this or related fields, including ongoing and completed research projects from the past three years that you want to draw attention to (previously captured under Section D. Research Support).

You may cite up to four publications or research products that highlight your experience and qualifications for this project. Research products can include, but are not limited to, audio or video products; conference proceedings such as meeting abstracts, posters, or other presentations; patents; data and research materials; databases; educational aids or curricula; instruments or equipment; models; protocols; and software or netware. Use of hyperlinks and URLs to cite these items is not allowed.

You are allowed to cite interim research products. **Note:** interim research products have specific citation requirements.

**Note the following additional instructions for ALL applicants/candidates:**

- If you wish to explain factors that affected your past productivity, such as family care responsibilities, illness, disability, or military service, you may address them in this "A. Personal Statement" section.
- Indicate whether you have published or created research products under another name.
- You may mention specific contributions to science that are not included in Section C. Do not present or expand on materials that should be described in other sections of this Biosketch or application.
- Figures, tables, or graphics are not allowed.

## **B. Positions, Scientific Appointments, and Honors**

List in reverse chronological order all current positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary). High school students and undergraduates may include any previous positions. For individuals who are not currently located at the applicant organization, include the expected position at the applicant organization and the expected start date.

List any relevant academic and professional achievements and honors. In particular:

- Students, postdoctorates, and junior faculty should include scholarships, traineeships, fellowships, and development awards, as applicable.
- Clinicians should include information on any clinical licensures and specialty board certifications that they have achieved.

## **C. Contributions to Science**

### **Who should complete the "Contributions to Science" section:**

All senior/key persons should complete the "Contributions to Science" section except candidates for research supplements to promote diversity in health-related research who are high school students, undergraduates, and post-baccalaureates.

### **Format:**

Briefly describe up to five of your most significant contributions to science. The description of each contribution should be no longer than one half page, including citations.

While all applicants may describe up to five contributions, graduate students and postdoctorates may wish to consider highlighting two or three they consider most significant.

### **Content:**

For each contribution, indicate the following:

- The historical background that frames the scientific problem;
- The central finding(s);
- The influence of the finding(s) on the progress of science or the application of those finding(s) to health or technology; and
- Your specific role in the described work.
- Figures, tables, or graphics are not allowed.

For each contribution, you may cite up to four publications or research products that are relevant to the contribution. If you are not the author of the product, indicate what your role or contribution was. Note that while you may mention manuscripts that have not yet been accepted for publication as part of your contribution, you may cite only published papers to support each contribution. Research products can include audio or video products; conference proceedings such as meeting abstracts, posters, or other presentations; patents; data and research materials; databases; educational aids or curricula; instruments or equipment; models; protocols; and software or netware. Use of hyperlinks and URLs to cite these items is not allowed.

You are allowed to cite interim research products. Note: interim research products have specific citation requirements.

You may provide a hyperlinked URL to a full list of your published work. This hyperlinked URL must be to a Federal Government website (a .gov suffix). NIH recommends using *My Bibliography*. Providing a URL to a list of published work is not required.

Descriptions of contributions may include a mention of research products under development, such as manuscripts that have not yet been accepted for publication. These contributions do not have to be related to the project proposed in this application.

**BIOGRAPHICAL SKETCH**

Provide the following information for the Senior/key personnel and other significant contributors.  
Follow this format for each person. **DO NOT EXCEED FIVE PAGES.**

NAME: Hunt, Morgan Casey

eRA COMMONS USER NAME (credential, e.g., agency login): huntmc1

POSITION TITLE: Associate Professor of Psychology

EDUCATION/TRAINING *(Begin with baccalaureate or other initial professional education, such as nursing, include postdoctoral training and residency training if applicable. Add/delete rows as necessary.)*

INSTITUTION AND LOCATION	DEGREE <i>(if applicable)</i>	Completion Date MM/YYYY	FIELD OF STUDY
University of California, Berkeley	BS	05/2003	Psychology
University of Vermont	PHD	05/2009	Experimental Psychology
University of California, Berkeley	Postdoctoral	08/2013	Public Health and Epidemiology

**A. Personal Statement**

I am an Associate Professor of Psychology, and my research is focused on neuropsychological changes associated with substance use disorders. I have a broad background in psychology, with specific training and expertise in ethnographic and survey research and secondary data analysis on psychological aspects of substance use disorders. As PI or co-Investigator on several university- and NIH-funded grants, I laid the groundwork for the proposed research by developing effective measures of disability, depression, and other psychosocial factors relevant to older people with substance use disorders, and by establishing strong ties with community providers that will make it possible to recruit and track participants over time as documented in the following publications. In addition, I successfully administered the projects (e.g. staffing, research protections, budget), collaborated with other researchers, and produced several peer-reviewed publications from each project. As a result of these previous experiences, I am aware of the importance of frequent communication among project members and of constructing a realistic research plan, timeline, and budget. The current application builds logically on my prior work. During 2015-2016, my career was disrupted due to family obligations. However, upon returning to the field, I immediately resumed my research projects and collaborations and successfully competed for NIH support. In summary, I have the expertise, leadership, training, expertise, and motivation necessary to successfully carry out the proposed research project.

Ongoing and recently completed projects that I would like to highlight include:

R01 DA942367  
Hunt (PI)  
09/01/16-08/31/21  
Health trajectories and behavioral interventions among older people with substance use disorders

R01 MH922731  
Merryle (PI), Role: co-investigator  
12/15/17-11/30/22  
Physical disability, depression, and substance use among older adults

R21 AA998075

Hunt (PI)

01/01/19-12/31/21

Community-based intervention for alcohol abuse

## **B. Positions, Scientific Appointments, and Honors**

### **Positions and Scientific Appointments**

2021– Present	Associate Professor, Department of Psychology, Washington University, St. Louis, MO
2020 – Present	Adjunct Professor, McGill University Department of Psychology, Montreal, Quebec, Canada
2018 – Present	NIH Risk, Adult Substance Use Disorder Study Section, member
2015 – 2017	Consultant, Coastal Psychological Services, San Francisco, CA
2014 – 2021	Assistant Professor, Department of Psychology, Washington University, St. Louis, MO
2014 – 2015	NIH Peer Review Committee: Psychobiology of Aging, ad hoc reviewer
2014 – Present	Board of Advisors, Senior Services of Eastern Missouri
2013 – 2014	Lecturer, Department of Psychology, Middlebury College, Middlebury, VT
2011 – Present	Associate Editor, <i>Psychology and Aging</i>
2009 – Present	Member, American Geriatrics Society
2009 – Present	Member, Gerontological Society of America
2009 – 2013	Fellow, Intramural Research Program, National Institute on Drug Abuse, Baltimore, MD
2006 – Present	Member, American Psychological Association

### **Honors**

2020	Award for Best in Interdisciplinary Ethnography, International Ethnographic Society
2019	Excellence in Teaching, Washington University, St. Louis, MO
2018	Outstanding Young Faculty Award, Washington University, St. Louis, MO

## **C. Contributions to Science**

1. My early publications directly addressed the fact that substance use is often overlooked in older adults. However, because many older adults were raised during an era of increased drug and alcohol use, there are reasons to believe that this will become an increasing issue as the population ages. These publications found that older adults appear in a variety of primary care settings or seek mental health providers to deal with emerging concerns about a substance use disorder. These publications document this emerging concern and guide primary care providers and geriatric mental health providers to recognize symptoms, assess the nature of the behavior, and apply the necessary interventions. By providing evidence and simple clinical approaches, this body of work has changed the standards of care for older adults with substance use disorders and will continue to provide assistance in relevant medical settings well into the future. I served as the primary investigator or co-investigator in all of these studies.

2. In addition to the contributions described above, with a team of collaborators, I directly documented the effectiveness of various intervention models for older people with substance use disorders and demonstrated the importance of social support networks. These studies emphasized contextual factors in the etiology and maintenance of substance use disorders and the disruptive potential of networks in substance use treatment. This body of work also discusses the prevalence of alcohol and amphetamine use in older adults and how networking approaches can be used to mitigate the effects of these disorders.

  - c. Merryle, R. & **Hunt, M.C.** (2020). Randomized clinical trial of cotinine in older people with nicotine use disorders. *Age and Ageing*, 38(2), 9-23. PMID: PMC9002364
3. Methadone maintenance has been used to treat people with substance use disorder for many years, but I led research that has shown that over the long-term, those in methadone treatment view themselves negatively and they gradually begin to view treatment as an intrusion into normal life. Older adults were shown, in carefully constructed ethnographic studies, to be especially responsive to tailored social support networks that allow them to eventually reduce their maintenance doses and move into other forms of therapy. These studies also demonstrate the policy and commercial implications associated with these findings.
